DETAILED ACTION

Allowable Subject Matter

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The instant application is directed to a combination of a seating system and a shared sensor for a vehicle. Each independent claim identifies the uniquely distinct features including "a shared sensor coupled to the control unit of the seating system and to a second system in the vehicle, the shared sensor collecting vehicle data and transmitting vehicle data to the control unit and to the second system". This patentable distinction is included in all independent claims 1, and 9. The closest prior art, Imaoka et al. (US 4,722,550) and Levine (US 6,691,015). Imaoka et al. disclose seat assembly for motor vehicle, and Levine discloses vehicle drive overdrive system. The references, either singularly or in combination, fail to anticipate or render the above limitations obvious.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
